

# Q2 2020 PLATFORM UPDATES: COVID-19 EDITION

We understand the importance of providing you with the right tools to effectively recruit and onboard drivers – virtually – in this “new normal”. It’s evident that we are all having to rethink, reevaluate, and revamp our hiring process, now more than ever. It’s our top priority to provide you with solutions that offer the most value. We have been actively developing items that address this dire need and have expedited the features listed below, and will continue to make ongoing enhancements. Not only will these features help you adjust to the current climate, they’ll allow you to improve efficiencies for years to come.

## NEW E-DOC SOLUTION

To dramatically improve hiring efficiency, we're releasing a comprehensive e-document solution:

- Create new electronic documents directly in the DriverReach platform, or upload your own existing documents.
- Choose from a variety of data points to be pre-populated into the doc; create a single template going forward.
- Automatically populate driver info, making it easier and faster for drivers to sign electronically.
- Send documents directly to a driver, via email or text, or send in mass with bulk action functionality.
- Once executed, docs will be auto-stored in the driver profile.

## REMOTE ONBOARDING & TRAINING

Through integrated partnerships with two industry-leading learning management systems (LMS), customers now have the ability to provide drivers with remote onboarding and recurrent training.

- Manage all the elements of getting your driver hired, trained, and onboarded from one platform, including your learning management solution.
- See the courses assigned to your driver, the due date, and the status of the course directly in the DriverReach platform.
